## VMGSim™
Integrated Steady State and Dynamic Simulation.

Easily create process models of refining, chemical and oil/gas processing to troubleshoot, design or optimize your plant. Create steady state models, size and rate vessels, columns and heat exchangers. Add your control system to the model and click a button to run dynamically. Use the dynamic wizards to create and run dynamic depressuring and blowdown studies and model multistage compressors and antisurge control. Create custom unit operations and economic models embedded in your process model by dragging the Excel operation onto your PFD. Graphical User interface driven by embedded Visio. Completely Interactive, bidirectional simulation solver.

New Innova-Sonic®
In-Line Ultrasonic Flow Meter with Order-of-Magnitude Improvement to Transit-Time Technology

Sierra's Innova-Sonic® Model 206 In-Line is a great choice for typical Mag-Meter liquid applications. The Model 206 is literally an order-of-magnitude improve-

Midland Engineering Ltd.

Specializing in...........

✔ Early Stage Process Evaluation
  Process Definition
  Preliminary Design
  Process Flow Diagrams and Material Balances
  Process Optimization
  Early Stage Capital Estimates
  Preliminary Economics
✔ Process Safety Analysis
  Process Safety Management
    Process Hazard Analysis
    Individual Element Expertise
  Responsible Care
  Reactive Chemicals Expertise
  LOPA
  Auditing Services
    PSM
    RCMS
✔ Project Management
✔ Process Control
✔ Process Reliability
✔ Process Optimization
✔ Waste Reduction

Engineers with EXPERIENCE.
We get the job done right and on time!

Free COMSOL Conference CD

COMSOL®, Inc. is now offering a free copy of the 2008 edition of the User Presentations CD! The CD is a compilation of over 250 user contributed slides, papers and models presented at the Boston and Grenoble Conferences. This unique presentation and proceedings CD covers a wide variety of applications including Chemical Engineering, Fluid Dynamics, Heat Transfer, Reaction Engineering and much more.
