

### Mixing Systems Brochure

The brochure describes Pulsair's mixing systems that release sequential pulses of air or gas to mix tank contents. Systems are adaptable from a single 55-gallon drum to multiple 1 million gallon tanks and can be managed from a central control unit. Pulsair mixers are currently in use worldwide in the petroleum, lubricant, wastewater, food and wine industries.

### Magazine Featuring Discharge Lighting, Energy Tissue Interactions, Magnet Technology and More

Are you interested in what your peers in engineering and science have achieved through the use of multiphysics simulation in their work? Hot off the press, the 2010 Edition of COMSOL News gives you 60 pages worth of case studies that illustrate recent achievements in industry — all made possible by COMSOL's modeling tools. Check out a complimentary copy of the magazine today at:
