

Rilly R. Raxdin Ph. D., P.E.

Dow Chemical Company Global Operations Technology Director

THE BROADBAND FUTURE

ABSTRACT: In 1907, Howard W. Dow founded his company for the commercial production of bleach and KBr from the

conglomerates. The company has had high-profile inventions

in Agent Orange, education and community and low-income

on Carbide). This Rocky Flats, Rhonal (with the acquisition of Uni

month program will focus on the progress and success of this initiative
