Plan to attend the 2017 Process Development Symposium this June in Toronto. Over two days, you'll be immersed in a comprehensive look at process scale-up essentials. This symposium is a must-attend for anyone involved in process development, offering an opportunity to learn from industry experts and share your own experiences.

CONFERENCE HIGHLIGHTS

- Pre-conference Reception prior to the start of the technical sessions, a great opportunity for networking with other industry professionals
- Keynote Presentation from Rav Gukstafson, Chief Executive Officer, Digital Specialty Chemicals (DSC)
- Eight Technical Sessions featuring speakers from chemical engineering, process development, and manufacturing

and personal experiences related to process development

- An engaging poster reception where attendees can enjoy drinks and hors d'oeuvres

Attendees will have the opportunity to share their "war stories," and learn from the experiences of others. This is a chance to connect with peers and gain valuable insights into the challenges of process development.

If you're looking for innovation and professional
