## Message from the Fe

Dear AIChE Fellows:

Congratulations to the new Fellows of 2016 who are to be recognized at the Spring 2016 AIChE Meeting.

In recognition of your status in AIChE Chemical Engineering, we hope that you will continue to lead the profession, taking advantage of your record of significant achievement.

One way to do this is to participate in society activities, even to suggest new activities. In this regard, we encourage professionals, promoting process safety, participating in local sections, helping student chapters, attending meetings, and ChemE-Car competitions, and working with professional licensing, and program development.

Following a suggestion of AIChE president, we will have an amount of leadership reporting at Fellow Meeting, *i.e.* for you getting to know your fellow Fellows with Fellow feedback, about a

At the Fall Meeting breakfast session, we discussed the results of a joint session on the issue of "academic/industry activities" at the 2013 San Francisco AIChE Meeting, facilitated by MPC Ranil Wickramaratne. That session, co-sponsored by AIChE, dealt with the marked shift in focus in "new" areas, and away from traditional areas in the chemical industry. Fellow Fellows served on the organizing committee. See the link

<http://www.aiche.org/confer>

At the Spring Meeting in Houston, we will have his activities in helping student chapters. See this newsletter.

Again, congratulations to new Fellows for a productive year.
