“Feel the Power of the Dork Side” is a hilarious and educational look at science & technology, and their practitioners. Written and performed by Pete Ludovice, the world’s only chemical engineering professor by day and stand-up comedian by night, it will prove that nerds can be funny, and not just funny-looking. www.drpetecomedy.com

The world’s only touring comedian with a Ph.D. from M.I.T., Pete has performed internationally as a comedian for over a decade, and taught Georgia Tech Chemical Engineers for over two decades. His research activities include the computer modeling of synthetic and biological macromolecules, and the use of humor to improve technical innovation, communication, and education (ludovice.chbe.gatech.edu). One of his National Science Foundation projects examines the use of humor in engineering education. He co-directs the Humor Genome Project (humorgenome.org) and the Geekapalooza Comedy Tour (pwp.gatech.edu/geekapalooza) at
