

The **2025 African Biotech Conference** will showcase the innovation, contributions and leadership from diverse disciplines that can advance biotechnology while also inspiring the next generation of diverse professionals and identifying, communicating, and exploring recent advancements in biotechnology.

CONFERENCE TOPICS:

- Synthetic and Computational Biology
- Regenerative Engineering
- Health and Medical Applications
- Cell Systems Engineering
- Nucleic Acid and Genome Design
- Bioengineering and Our Community
- AI and Bioinformatics

 Submit abstracts, register and learn more about African Biotech 2025 aiche.org/african-biotech

CONFERENCE CHAIRS:

Simone Douglas-Gee
Georgia Tech | Emory University

Jamal Lewis
University of Florida

Marie Rabe
Virginia Tech

ORGANIZING COMMITTEE:

Maria Ackermann
Georgia Tech | Emory University

Cheri B
Biogen

Leid Geyer
Purdue University

Kamella Harte
Georgia Tech and Emory University

Jada Selma
Medtronic
