

Hydrogen Safety Pledge

I/my organization pledge to do the following:

1. Strong leadership support: Ensure leadership demonstrates a strong commitment to safety through its messaging and priorities.
2. Mutual trust: Provide a working environment where employees at all levels feel confident in each other's commitment to safety, allowing them to openly report hazards, concerns, and near misses without fear of reprisal.
3. Prioritize safety: Ensure safety is at the core of each person's decision-making and work activities.
4. Adopt best practices: Continuously seek and apply the latest safety technologies and practices.
5. Promote ongoing training: Provide continuous education to employees to recognize and manage hydrogen risks.
6. Encourage transparency: Champion an environment where safety concerns, incidents, and near-misses are openly reported and shared with CHS¹.
7. Collaborate for safety: Share knowledge and work with others to promote hydrogen safety across the industry.
